Panel Discussions

Speakers in our Community

Top professionals and experts from leading tech companies. They bring real-world use cases, insights, and knowledge about the latest technology updates.

Their talks are highly practical, making them valuable for developers and tech enthusiasts looking to upskill and keep up with the market trends.

Our Speakers

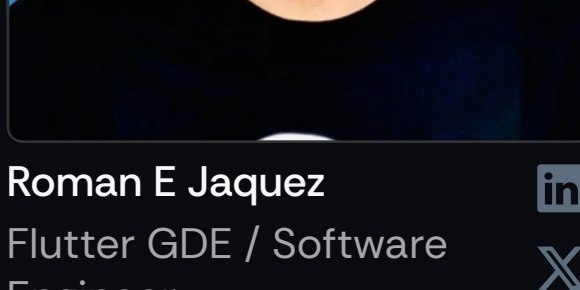

June 10-11 | online

We gather Tech Leaders from all around the world: big tech and small startups, consulting and product governments, research labs.

Niche experts, AI researchers, managers of all levels.

Join as Speaker!
